

Watchtower

Log In

After registering properly, a visitor may log-in. Upon logging in, the user can start posting and commenting. The user is given the option to be “remembered” by the website. When the user chooses this option, every log in and visit to the website will extend their “remember” period by 3 weeks.

Log Out

The user may log out from their account.

Create Account

A user has an option to register and create an account. Users are required to provide information such as their email, full name, IGN (in-game name), password.

Search

Users may search and look at other accounts and be able to check the different events in the site.

Create Event

Users with accounts may create an event for other users to be able to see, register and participate in. Information about the event is needed, information such as the name, game, number of

participants, start date, end date and other additional info.

Rating

Users with accounts may rate events.

Comment

Users with accounts may comment on events.

General Good

User experience. Visitors can easily navigate without help, all information is easy to access. Good visual design. Design suits the theme of the application, and is cohesive and consistent across the whole application.
